

## LET'S HAVE OLD-TIMER

An Old-Time Country Fair Is The Thing For Next Year.

### MEETING HELD NEXT MONDAY

To Consider The Movement Inaugurated By The B. M. A.

There will be, or ought to be, a big crowd in town next Monday. It is the first day in the month, and it is just the right time for the meeting at the City court room to organize an association that will have energy and pluck enough to have a fair next fall. Be there at 10 o'clock.

We ought to have a county fair, an old-time fair. A place where can be shown every product of the soil, everything produced, even the prettiest women in the county, the prettiest babies, the finest horses, cows and sheep, the most luscious fruits, the most tempting jellies, preserves, jams, and the finest chickens, ducks, turkeys, geese and everything else that the people raise, grow and make.

Gentlemen, you who have again taken the lead, get up a fair of this kind. We need it. We are behind some of our neighboring cities in this. Madisonville, Owensboro, Henderson, Bowling Green and other places are leading us in this. Get the people interested and there is no doubt that the fair will be assured. When we have one, others will follow. No fear of this. Offer big premiums for tobacco, hogs, horses, cattle and manufactures, and deal liberally with the housewives and everybody will be ready to take a hand. We have been sleeping too long already.

### Cat Mothering Rats.

They have a valuable cat out at Gate's Mill, on the Nashville pike and all the employees of the mill are very much attached to her. Pussy last Thursday lost all of her little kittens and was in deep sorrow. In the afternoon she became desperate over her loss and determined to adopt a whole family of rats which the mother left. Finding half a dozen young rats in a hole who had been deserted by their mother, the affectionate feline reached into the hole and one by one drew them out. After taking out the last one, she finally succeeded in bunching the lot and took them under maternal care. The people about the mill have concluded to let the cat raise her adopted children. Friday morning the young rats had gotten used to their new mother and were quite busy hunting for nourishment.

## FOOTBALL.

First game of the season between High School and Bowen, of Nashville, at Mercer Park this afternoon at 3 o'clock. Admission 25 cents.

### Conditional Judgment.

An agreed judgment for a fine of \$1,250 against the International Harvester Company was this week filed in Circuit Court. This is the outcome of an action brought several months ago against the Harvester company charging it with maintaining an unlawful combination in restraint of trade in this county. The judgment carries a provision with it that payment of the fine depends upon the decision of the Supreme Court of the United States on an appealed case now before it. If the decision of the Supreme Court is favorable to the Harvester company then the judgment here is to become null and void, but if it is favorable to the commonwealth then the judgment here is to stand, and the fine will be paid.

### BADLY BURNED.

Councilman Haydon's Little Boy Got Hold of Carbolic Acid.

The 17-months-old son of Mr. and Mrs. H. L. Haydon was badly burned about the face and mouth last Wednesday. The little boy was in the room with his mother, and while Mrs. Haydon was busy he went to the washstand and got hold of a vial of carbolic acid. He put the cork between his teeth and pulled it out, the acid spilling between his lips and running down his face. Mrs. Haydon had no idea of what the child was up to until he began screaming with pain. He suffered intensely and it will take some time for the burned places to heal. Councilman Haydon has been suffering several days with a mashed thumb. The thumb was so badly mashed that the flesh was separated from the bone.

### L. H. DAVIS

Makes Another Upward Step In The K. P. Grand Lodge.

Lucian H. Davis has always been an ardent Knight and his brothers have honored him time and again. At the annual meeting of the Grand Lodge Knights of Pythias in Louisville this week, the grand body advanced him one step higher up. At the opening Mr. Davis was Grand Outer Guard and he was made Grand Inner Guard when the new officers were chosen. He is worthy of the many honors that have been extended him in all the secret societies with which he is connected.

### ON VISIT

To Christian When Taken With Fatal Illness.

Mrs. Margie Morgan, of Nashville Tenn., died Thursday at the home of her sister-in-law, Mrs. Susan Berry, near Carl, this county. Mrs. Morgan was here on a visit and was taken ill just ten days ago with pneumonia. She was 67 years old and a member of the Christian church. She was a native of Todd county. Interment in the Berry burying ground to-day.

### TUBERCULOSIS

Causes Death Of Mrs. Hester Simpson, Near Hawkins.

Mrs. Hester Simpson died at her home near Hawkins Wednesday, after a lingering illness of consumption, aged 36 years. Her husband and two daughters survive. Mrs. Simpson was a member of the Methodist church. The interment took place in the Armstrong burying ground Thursday. Services were held at the grave by Rev. T. R. O'Brien.

### Two Deaths At Asylum.

Mrs. Robert Hilton, a McCracken county patient, died at Western State Hospital Tuesday, of meningitis, aged 45 years. She was received here for treatment about four months ago.

Harvey Bidwell, a patient from Muhlenburg county, died Thursday, of Bright's disease, aged 62 years. He had been in the institution about eighteen months.

Both bodies were interred in the hospital burying ground.

### Plucky Mayor Polsgrove.

Mayor Jas. H. Polsgrove of Frankfort was shot down on the street by Patrick Haley whose wife is suing for a divorce, the Mayor being her attorney. He was hit in the thigh, but regained his feet and grappled with Haley, finally disarming him and knocking him down with a blackjack. Two men who were talking to the mayor left him when he was attacked. Haley fired at him three times.

Rev. W. H. White, of Florence, Ala., is visiting Mr. C. F. Lyle.

## EVIDENCE ABOUT IN

Testimony In the Galbreath Case Will Be Concluded To-day.

### R. H. DeTREVILLE A WITNESS

Defendant Was on the Stand All of Yesterday Afternoon.

The trial of J. B. Galbreath, charged with accepting a dividend when the Acme Mills Company was insolvent, made such good time that the prosecution finished yesterday at noon. Witnesses used by the State were Geo. D. Dalton, C. H. Dietrich, A. B. Fisher, the expert accountant; R. H. DeTreville, E. W. Stager, T. W. Blakey, Nat. Gaither, R. J. Carothers and B. A. Rogers.

The defense began at 11:30 a. m. with the defendant on the stand. It was expected that his examination would take all of the afternoon. The evidence will be finished to-day, but the speaking will go over to next week.

The cost of bringing 83 men here on the Todd venire who were not used was \$291.42. Twelve on the jury are yet to be paid.

### CAPT. WHITLOW

Former Manager of Hotel Latham, Visits the City.

Capt. Whitlow and Brown Whitlow passed through the city last Thursday, enroute to Metropolis, Ill. They made the trip in an automobile from Guthrie to Metropolis. Capt. Whitlow has been running the hotel at Guthrie for the past four years, but has disposed of his interests there. His future plans have not been made known. There are a great many people in Hopkinsville who would be glad if Capt. Whitlow, who managed Hotel Latham so very successfully for many years, could see his way to again locate here.

### The Athenaeum.

The Athenaeum met at Hotel Latham Thursday night with 24 members present.

Mr. H. W. Linton read an excellent paper on "The Divorce Evil" and Mr. L. H. Davis one on the "South's Resources." Both papers were discussed at length.

President Henry returned from Louisville and came in late. Mr. John C. Duffy presided during the early part of the meeting.

### Death of Mr. Medley.

Chas. E. Medley, a native of this county and brother of Mr. Jas. Medley, of Beverly, and Mrs. J. M. Dennis, died Tuesday at his home in Columbus, Ky., of paralysis. He was 65 years old and a Confederate Veteran. His wife and four children survive.

Now look out for a sure enough race for Governor in New York with Sulzer, Democrat; Hedges, Republican, and Straus, Bull Moose, in the ring. And don't be surprised if Sulzer gets more votes than both of his opponents.

A peace pact was signed yesterday by Italy and Turkey.

### HINTS ON CANNING GREENS

Method Which If Followed Carefully Will Insure Success Every Time.

Many things used for greens may be canned by the following method: Pick over carefully and wash the leaves—mixture of kinds is desirable; cook in boiling salted water as for the table until nearly done; do not have much water, but cook in closed kettles to make the steam do the work. Then pack closely in jars and pour over them boiling vinegar to fill every air space, then seal tightly as any other canning. Pack the greens closely in the jar, and when pouring in the boiling vinegar, run a knife blade around the edge in order to open up the spaces for the vinegar. Wrap each jar in brown paper, or put into paper bags, and keep as other canned fruits. Spinach, mustard, chard, beet and other greens are put up in this way.—Commonest.

Delegates to an international peace  
conference at Geneva have unanim-  
ously agreed that complete autonomy  
for Alsace.—Lorraine would bring  
about better relations between  
Germany and France. France has  
always been sore over the loss of  
this province, inhabited by French-  
men.

Dr. Cook has broken out afresh  
and in a lecture at Kansas City said  
in his opinion the earth cooled first  
at the poles, that the garden of Eden  
was at the North Pole and that  
Adam and Eve were Eskimos. He  
says he found cool beels 500 miles  
from the pole in which fossilized  
pond lilies were embedded. It was  
hard enough for some of us to  
believe the Doctor's first story.

Four Hours.

Dustless dusters are prepared by  
soaking cloths, preferably cheesecloths  
or something similar, in kerosene oil,  
and then putting them away for not  
less than twenty-four hours in a tin  
box. They are then ready for use.

The reason of them lying immersed  
for this length of time is to allow the  
kerosene to practically dry into the  
cloth.

If freshly dampened before using the  
result would be streaks and smears on  
floors and furniture generally.

When the kerosene is completely ab-  
sorbed by the material the cloth will,  
of course, take up the dust without  
scattering it as the ordinary duster is  
apt to do.

One housekeeper uses the legs of  
stockings out flat for dustless dusters,  
after treating with kerosene, of  
course.

She also keeps an old stocking  
(treated) for slipping over her hand  
for dusting small or delicate orna-  
ments. The woolly substance absorbs  
the dust.

A Matter of Assurance.

whether he got the right answer, and  
it really didn't seem to make much  
difference to him."

recommend Cardui, the woman's  
tonic, to any woman in need of a  
remedy. For five years, I was un-  
able to do my own work. Half my  
time was spent in bed. At last I  
tried Cardui. Now I am well and  
happy, and can do my own work."

## TIRED OF LAWYER'S ORATORY

Protest Made by Camorraists No Doubt  
Has Been Echoed by Many a  
Wearied Jurymen.

The Camorra trial has been pro-  
ductive of many surprises, but none  
more sensational than the plea of the  
accused that they be spared the or-  
atory of their own advocate. After  
the lawyer, Liroy, had been speaking  
for ten days one of the caged prison-  
ers sprang to his feet and exclaimed:  
"Your excellency, my fellow-prison-  
ers and myself were five years in jail  
awaiting trial. This trial has al-  
ready extended over a couple of  
years, during which three of our  
number have languished and died.  
Every one of us behind these steel  
bars is wrecked in health, and if the  
trial lasts much longer none of us  
will survive to hear the verdict of  
the jury. Lawyer Liroy has been a  
large benefactor to us; but we im-  
plore, for the love of God, that he  
abridge his oration. We have all  
come to the end of our powers of re-  
sistance." It is strange that any  
man should believe that a cause can  
be advanced by so prodigious a  
speech as this. Even the Recording  
angel with exclusive sources of in-  
formation, would have somewhat  
less to say. The effect on the aver-  
age jurymen must be one of recent-  
ful exasperation.—San Francisco  
Argonaut.

## A STRAIGHT FLUSH

Ruth—How beautiful Marie's  
cheeks are colored. It must be ar-  
tificial.  
Orme—Not at all. That's a  
straight flush.

## STILL SLAUGHTER WHALES.

We have been so often told that  
the whale fisheries are now extinct  
that we learn with surprise that 20-  
000 whales were captured last year  
in the waters of South Georgia,  
South Shetland, South America and  
Africa and that other fishing fields  
yielded substantial catches. Who  
would have thought that there were  
so many whales? But we are as-  
sured that in a few years' time there  
will be no whales left, thanks to the  
use of the deadly gun. The voracious  
whale was safe under the old sys-  
tem. He was too swift and too fierce  
to approach in boats, but he is easily  
conquered by the harpoon fired out  
of a gun from the deck of a ship.  
The whale is not exactly a lovable  
animal, but it seems a pity that he  
should be exterminated, especially as  
we were under the impression that  
he was already exterminated.

## CORRECTED.

The club meeting was warming  
up.

"The statement just uttered,"  
said one member, "is a cheap bro-  
mide, as everybody knows."

The guest from Boston stirred un-  
easily.

"Pardon me," she said, "but you  
mean bromidion."

## THE ADVANTAGE.

"Sometimes I wish I were a  
horse."

"What makes you wish that?"

"Because then I could go to grass  
and find myself in clover."

## ITS FITNESS.

"Why have you decided to become  
a beauty doctor?"

"Because there are handsome  
profits in the beauty business."

## THE REASON.

"After all, poverty is the great po-  
fieman of life."

"Well, everybody allows it pinch-  
es people."

## MERE FORMALITY.

Stella—Are you engaged?

Bella—Well, I expect the notifi-  
cation committee tonight.

## Humiliated Indian Tribe.

When the Quakers came to Penn-  
sylvania in 1682 the only Indians in  
the neighborhood were the Dela-  
wares, who had just been terribly  
beaten by the Five Nations and forced  
into a treaty by which they sub-  
mitted to be called women.

### FIRST AERIAL COACH.

The first aerial coach has been tried and found successful in Etampes, France. It is an ordinary aeroplane, to which a limousine body, capable of holding four passengers comfortably, has been fitted. The aerial coach made a flight of about an hour across country, but it carried no passengers. The place of passengers was taken by four bags of sand, weighing in all about forty stones, supposed to be the average weight of four tourists. The aerial coach leaves nothing to be desired as to the comfort of future travelers, who will have a vast view of the country over which they travel, and will scarcely feel the motion; but the only drawback as yet is the safety of the machine. Until some improved safety device has been found tourists will prefer a motor car or a railway carriage.—Washington Gazette.

### CIRCUMSTANTIAL EVIDENCE.

A young wife was in tears a few mornings ago, when her mother called. When asked what was the matter she replied that her husband was out late the night before and had been to a drinking party. "He came home," sobbed the young wife, "wearing a phonograph horn for a hat."

## Will The REAL FREEMEN Uphold Wilson's Hands?

Woodrow Wilson has refused emphatically to accept contributions to his Campaign Fund from the Interests, from corrupting influences, from any questionable sources.

He has given us, the Democratic National Committee, to understand that he will go into the White House with clean hands or not at all.

### Who Is Getting The Money of The Trusts?

So sure has been Wilson's stand, so well known his incorruptible purpose, that no private interests have dared to approach either our candidate or his committee.

We have not been offered a penny by the trusts, and we certainly have not solicited a penny from them. The money of the Interests is being spent against Wilson. No matter for whom—we need not discuss that here—it is now common gossip that the money power of the nation is being used in an attempt to defeat Woodrow Wilson.

### What Is a "People's Campaign?"

We are addressing ourselves to the real freemen of America, the upright, Progressive Voters of the country who are doing the work of the nation and not the work of trusts and bosses.

We realize that the salvation of every righteous cause rests with you.

Often this cry of a People's Party or a People's President is raised by the very forces we seek to defeat and whom we must and will defeat. But look to our standard and our standard bearer and decide yourself as to which is the People's Campaign and must, therefore, be fought with the People's money.

### Woodrow Wilson Has Clean Hands

Woodrow Wilson is the cleanest man in national politics. He came of illustrious forefathers, who laid by blood and heredity the foundation of a future President through generation after generation of upright record.

If Wilson is to be elected it must be by clean money and there is only one source of such money—from the voters of the country who realize the importance of having a government uninfluenced by the almighty dollar.

Wilson's hands are clean.

Will you uphold them?

### How Much Money Will You Give? How Much Can You Raise?

There are big campaign expenses to be met if we are to win on Election Day in November. We must tell the voters of the country about Wilson, what he is, what he has done. We must show them his record. We must show them his platform. We must point out to them the features of his platform which mean so much to this nation. This great work will cost a lot of money. We must meet the usual heavy toll necessary to present a platform and a candidate to a hundred million.

Your dollar, your \$5, your \$10, your \$20 is needed. And don't mistake—we want the man who can only afford the one dollar. We need him. We need the woman who can

only give one dollar. We believe in this kind of loyalty—it's the kind that wins.

Let every one contribute to the Woodrow Wilson Campaign by the first mail. Let's have as big a fund as the corporations can supply the other parties. For the people are mightier even in money than the combinations—when they get together.

### A Call To Those Who Will Club Contributions

No live progressive voter can do more for Wilson's cause than to head a list with his own contribution and then to have his fellow-workers and friends swell the total with their names and money.

If you work in an office or factory, mill, warehouse, on a railroad, ranch or farm, start the ball rolling. Line up the Wilson men. Sign up as many contributions as you can. And mail to us.

### How To Contribute To The Wilson Campaign Fund

Sign the Coupon in this corner and fill in the amount you give. Then attach your money to this Coupon and mail today to the address given on the Coupon.

Issue all checks, money orders and address all contributions to C. R. Crane, Vice Chairman Finance Committee, Democratic National Committee, 900 Michigan Avenue, Chicago, Ill.

Then write a letter to this paper giving your name as a contributor and stating your reasons why you believe Woodrow Wilson should be elected President of the United States. In this way you will be listed as a Wilson contributor. A Souvenir Receipt, handsomely lithographed, well worth framing, will be sent to you. Your letter will help the fight by encouraging your friends.

### Woodrow Wilson Campaign Fund LOYALTY COUPON

To C. R. CRANE, Vice Chairman Finance Committee, The Democratic National Committee, 900 Michigan Avenue, Chicago, Illinois.

As a believer in the progressive ideals of government represented in the candidacy of Woodrow Wilson for President of the United States, and to the end that he may take the office free-handed, untrammelled, and obligated to none but the people of the country, I wish to contribute through you the sum of \$..... toward the expenses of Gov. Wilson's campaign.

### LOCKED THE PLAYWRIGHT IN

Strategy Used by Theatrical Producers to Obtain Finished Manuscript on Time.

The stories told of George M. Cohan's habit of eleventh-hour playwriting recall a similar instance in the case of the illustrious Sheridan. Just two days before "The Critic" was to open, the last act was still unwritten. Ford & Linley, the proprietors of the theater, were naturally much worried and determined upon desperate measures. Linley invited Sheridan to dinner, and afterward prevailed upon him to go to the theater. There Mr. King, the stage manager, asked the playwright to step into the greenroom for a moment—"to meet some neglected friends." Sheridan complied, and found awaiting him a chair and a table upon which were ink and paper, along with a bottle of wine and a plate of sandwiches. The instant Sheridan entered, King stepped out, locked the door behind him, and, deaf to the prisoner's outcry, marched away.

Next morning the conspirators unlocked the door and found a very weary playwright—and the much-needed last act of "The Critic."—Green Book Magazine.

### OLD GLORY IN FAR INDIA

An American Tourist Finds a Unique Souvenir While Traveling in the East.

Among the souvenirs of a trip around the world brought back by a woman whose tour came to an end in Chicago a few days ago is an American flag which the tourist purchased in India. "I saw it," she said, "in a vender's stock and brought it to show that our flag is not the same everywhere."

The souvenir is silk and hand made. It has eight red and seven white stripes and on the blue field are thirteen stars and the American shield. "The strangest point about the thing is this," the woman added when she showed the flag, "the man from whom I bought the flag insisted that it was correct in composition and that the little one which I carried in an envelope in my handbag was the flag as it used to be before the Civil War."

### ROYAL COCKTAILS.

Nobody credits the Englishman, not even the Englishman himself, with being anything like an adept in the art of "mixing drinks," and there are few so-called American bars in London where an American will risk asking for a second cocktail. London hostesses, however, have a perfect craze for inventing new "eups" for hot weather drinking. But those who know say that the best of all is dispensed at Marlborough house and is the sole invention of Queen Alexandra.

It is a delicious concoction made of the juice of crushed peaches and oranges used in equal parts; a few slices of cucumber are added, sugar to the taste, and a faint suspicion of ginger. The mixture is mellowed with marachino before being placed on ice.

King Edward once devised a new "eup," but he never parted with the secret, while King Alphonso has a celebrated concoction, "the nonpareil," to which his visitors are very partial. Connoisseurs aver, however, that no kind of "brew" comes up to that of Queen Alexandra, which they have decided to call "The Elixir of Life."

### THOUGHTFUL ROBERT.

Robert was about to have another birthday. In the past, the fun making had always been so hard and prolonged that it left him fatigued at night.

So this year, before he went to bed the night before, when he had said his prayers he began over again. His mother, surprised, asked him:

"Why are you saying your prayers twice, Robert?"

"Oh," replied Robert, "tomorrow night I'll be too tired to say 'em at all."—Everybody's Magazine.

## COMFORT IN TRAVELER'S TEA

One Wise in Lore of Creature Comfort Never Wanders Far Without Her Own Tea Caddy.

In traveling both at home and abroad, there is great comfort in your own cup of tea. On the steamer, particularly, you miss your own brand and the well-remembered comfort of a cup of tea. In the lore of creature comforts never wanders far from home without her tea caddy. It is a necessity to her popularity. Of it I only had a good cup of tea. It is the natural cry of the traveler. The tea caddy is a small, portable, and attractive container for tea. It is made of a material that is easy to carry and makes a really practical gift.

For this poignant need of the traveler, a charming little tea box of mahogany containing a small silver tea caddy and a little tea ball, reproducing a miniature tea kettle, has been put upon the market. It is very simple in arrangement, compact, and easy to pack and makes a really practical gift.

There are many places on the continent where good tea is a real luxury, and many an unsophisticated American is astonished when she pays her bill for what she considers a very simple refreshment. She finds that her cup of tea costs more than a very elaborate dinner, and so it is a great economy, as well as comfort to carry your own tea with you.

## The Charger at the Funeral.

The charger led at the funeral of a cavalry officer is a relic of the custom when a horse was sacrificed at the grave. An officer led the charger behind the bier to the brink of the grave and it was there slain and thrown upon the coffin. The last occurrence of this kind took place at Treves, Germany, in 1781.

## \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

## WOULD HAVE HOME ENDURE

John Ruskin Had All the English Appreciation of the Work of His Ancestors.

I cannot but think it an evil sign of a people when their home is built to last for one generation. There is a quality in a man's home which cannot be measured in very material things. It is in its spirit; and I believe that men would generally feel that their home, having spent their lives in it, and having seen it decay, and having seen the place of their earthly abode, which had been, and seemed about to sympathize in all their honor, their gladness, or their suffering—that this, with all the record it bore of them, and all of material things that they had loved and ruled over, and set the stamp of themselves upon—was to be swept away as soon as there was room made for them in the grave; that no respect was to be shown to it, no affection felt for it, no good to be drawn from it by their children; that though there was monument in the church, there was no warm monument in the home and house to them; that all the things that were treasured as dear, and the places that had sheltered and comforted them were to be given to the dust.—John Ruskin.

## MUSIC'S POWER TO SOOTHE

Medical Experts Have Found the Heart and Nerves Respond to Tunes, Lively or Sad.

A medical journal has recently pronounced the results of experiments made to ascertain the relation of music and medicine. One curious piece of news obtained is that if a lively air is played on a harp or mandolin, a man's tired muscles regain their original vigor. The music of a violoncello, on the other hand, has a precisely opposite effect, in temporarily lessening the unusual strength and vitality of the hearer. In nervous and impressionable people, sad music in a minor key, such as Chopin's "Funeral March," actually weakens the pulse and makes the beating of the heart feebler and more irregular.

An American doctor caused some amusement a little time ago by suggesting that almost every mental trouble could be cured by suitable selections of classical music regularly administered. Jealousy, grief, overwork, homicidal mania, nervous breakdown, all had their corresponding air. The medical world is taking the idea seriously.

## MOON CAUSES RAIN IN AFRICA.

A new instance of the supposed connection of the moon with rainfall claims the support of highly scientific authority. Heavy rains are said to occur in South Africa at intervals of 19 years and this period coincides with the lunar cycle of maximum north and south declinations.

E. E. Nevill, late director of the Natal observatory, finds an explanation in the moon's attraction. The theory is that a permanent cloud belt is drawn along by the moon and that as the moon nears its furthest point north the mass of clouds is made to impinge on the mountains in Natal, giving excessive rainfall.

## NOT HIS RESOLUTION.

Above the writing table in her nephew's library Aunt Maria found a framed resolution: "On the first of this month I resolve to stop smoking cigarettes."

"How terrible!" said Aunt Maria. "Harry, is it possible that the habit of smoking these odious things has fastened itself so strongly upon you that it takes a framed resolution to break it off?"

"Oh, it is not I who have sworn off," said Harry, "it's my wife."

## SURE OF THAT MUCH.

Two business men sat side by side in a car the other morning and earnestly discussed a matter in which both were deeply interested. After one of them had presented what he seemed to consider a convincing argument the other replied:

"Well, anyhow, you've got to admit that the credit belongs to me who done it."

## A FINANCIER.

Scott-Jones says that he cleared between five and six hundred on the stock deal of his. I wonder if it's so. Mott—Oh, yes; he made between \$5 and \$800. The exact amount, believe, was \$8.75.

Winn, Ill.—"After fourteen years of suffering everything from female complaints, I am at last restored to health."

"I am proud to best doctors and even went to the hospital for treatment and was told there was no help for me. But while taking Lydia E. Pinkham's Vegetable Compound I began to improve and I continued its use until I was made well."

—Mrs. HENRY LEISBERG, 743 Adams St. Kearneyville, W. Va.—"I feel it my duty to write and say what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from female weakness and at times felt so miserable I could hardly endure being on my feet."

After taking Lydia E. Pinkham's Vegetable Compound and following your directions, my trouble is gone. I feel free to express my thanks to you for the relief you have given me."

—Mrs. G. E. WHITTINGTON. Above are only two of the thousands of grateful letters which are being received by the Pinkham Company of Lynn, Mass., which tell of what great things Lydia E. Pinkham's Vegetable Compound does for women who suffer from woman's ills.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be answered, read and answered by a woman and held in strict confidence.

## Trust Department

The first obligation resting upon the individual who is possessed of property is to make a Will. The time to do this is when the faculties are unimpaired.

The proper handling of an estate entails burdens which a testator should hesitate to impose upon a friend, and demands an amount of time and care that few can give. Moreover, there is always the risk that the executor, if an individual, may die before the estate is settled.

When naming a trustee, guardian, agent, receiver, registrar, etc., remember we are equipped to perform the work of all these offices, efficiently, economically and with absolute safety.

## STATEMENT.

Breeders of fine horses take account of three things in considering a stallion to breed their mares to.

They want to know about the horse's ancestry, about the animal himself, and about his colts. In all these respects these horses invite the most critical scrutiny. They are bred in the elect lines of Kentucky's greatest horses, many of whom have enviable records in the show ring and as producers. As individuals they are up to the standard of the selling markets of the world.

They carry in their veins the best of blood founded on well organized strains, and I am confident their get in this locality will demonstrate them to be producers of the rarest type.

## Convicts Lynch Negro.

Convicts in the Wyoming penitentiary lynched Frank Wigfall, the negro assailant of Mrs. Esther (Granny) Higgins, aged 72 and known as the prisoner's friend. Wigfall was rushed to the penitentiary to escape a mob on the outside. While at breakfast the guard was overpowered before he could thrust the negro into a cell and himself locked in a cell by the infuriated convicts.

One of the convicts produced a rope and while others held the negro he tossed a half hitch over the negro's head and made the other end fast to the balcony rail of the cell-house. The negro was tossed over the rail and the convicts marched back to their work.

Not until the cries of the imprisoned guard brought other guards was the lynching known to any except those who took part in it.

Sunday night Wigfall broke into Mrs. Higgins' house, chopping down a door with an axe. About dawn Monday he left her in a pitiful condition.

## DAINTY TABLE FAVORS

SUGGESTIONS FOR TEAS TO FORTHCOMING BRIDES.

Family Taste and Ingenuity Shown in Knickknacks of Uncommon Cleverness—Pure White for Novelties.

The teas given to forthcoming brides are graced by the most charming favors. The best of the trifles are bought at the high-class confectioners, where they are to be found in a more novel and elegant form than elsewhere, but smart florists also show some very pretty things for this purpose, as well as most of the large department stores. Here and there, too, one sees a tea table embellished with homemade knickknacks of uncommon cleverness, some of these imitating the shop articles, and some inspired by the family's own taste and ingenuity.

As the bride's newest bouquet is to be in pyramid form, little corsage knots are made in this shape of artificial flowers. Various tiny posies are mixed together, wee pink buds, or red ones, or yellow ones, forget-me-nots in several shades of blue, pansies in all colors. The most delicate green is used with these, fragile bits of asparagus fern and other feathery tufts and small leaves. When the little bouquet is made up in the pointed shape, it is inclosed in a horn of lace-edged paper and the handle tinfoiled. All of the flowers used are very cheap just now, and for the paper holders, when the pretty things are made at home, many girls buy the packages of round lace-edged paper used upon cake and bonbon dishes and sold at ten cent stores. If there are to be men guests at the function boutonnières for them are made up in the same manner. The rounds of paper need to be cut the required size and the edges pasted together. Such corsage knots and boutonnières are permissible for any smart tea, dinner or luncheon.

The novelties strictly for bridal use are always in pure white. There are tiny dolls dressed as brides, wedding trunks, slippers, little satin bags containing rice or confetti, wedding bells, wee automobiles holding flowers or candy, etc. Occasionally a groom in black get-up, with the traditional white boutonniere, is shown in this snowy gathering, and one such little gentleman adds a very realistic note to the decorations of the table. Painted figures on cardboard bedeck place cards, the brides, bridesmaids and black-coated men all cut out and held up by a little rest at the back of the card. The cards are very easy to make if anybody in the family has a gift for water-color painting, and when they are printed they are cheap enough.

## ALL AROUND THE HOUSE

Dates stuffed with peanut butter and then rolled in sugar are a pleasing change from dates stuffed with nuts. If a curtain or portiere pole is rubbed with hard soap before being put up the draperies will slip on easily.

Dates and figs cut in small pieces and served with plenty of sugar make a tasty accompaniment to a dish of rice boiled in milk.

Cheese may be kept soft and good for a long time if wrapped in a cloth wrung out in vinegar and then wrapped again in dry cloth.

Whole wheat or brown bread cut into very thin slices and spread with unsalted butter is tasty served withysters on the half shell.

Strange as it may seem, beef may be kept for months if immersed in sour milk. The lactic acid destroys the germs of putrefaction.

Scraps of toilet soap should be saved and when half a cupful or so is on hand it is a good plan to make the scraps into a soap jelly.

Use hot milk instead of cold when mashing potatoes and they will be fluffier.

Chicken fat is far better than butter to use in making a white sauce when creaming chicken.

Always lower the temperature of the oven somewhat fifteen or twenty minutes after a roast has been placed in it. This will insure that the juices be retained.

On rainy days, when it becomes necessary to dry clothes within doors, use your theoretical knowledge that heat rises and hang them as high up as possible.

**Gooseberries and Cream.**  
Pick off stems, thoroughly wash and carefully drain on a cloth a quart fresh, sound, large gooseberries; place on a dish, sprinkle two tablespoons powdered sugar over, lightly mix; whisk 1½ gills cream till well thickened but not quite to a froth, adding two tablespoonfuls sugar; whisk for a minute, pour over the gooseberries and serve.

**Tea Ice Cream.**  
Boil a quart of milk and then pour it over one ounce of tea leaves; let steep covered for five minutes. Strain into a bowl over a caramel made of two ounces of sugar. Beat the yolks of eight eggs with one-half pound of powdered sugar; stir the milk into this mixture, and place the whole over the fire, gently stirring until it thickens.

## Helpless As A Baby.

Valley Heights, Va.—Mrs. Jennie B. Kirby, in a letter from this place, says: "I was sick in bed for nine months, with womanly troubles. I was a weak and helpless, at times, that I could not raise my head off the pillow. I commenced to take Cardui, and I saw it was helping me at once. Now I work all day." A tonic, for weak women, nothing has been found, for fifty years, that would take the place of Cardui. It will surely do you good. Cardui is prepared from vegetable ingredients, and has a specific, curative effect on the womanly organs. Try a bottle today. At your druggist's. Advertisement.

## TRY TO BE ORDERLY

HAVE PLACE FOR EVERYTHING AND KEEP IT THERE.

The Topsy-Turvy Girl Finds It Hard to Live or Work in Cramped Quarters—Be Neat at Any Cost.

It is hard to keep crowded quarters neat, as the girl of one room or the housekeeper of a small house sorrowfully knows. In days when there were great linen chests, huge closets and fewer belongings, the problem was simpler. Then our grandparents made a fetish of neatness.

If only in the interest of one's nerves a place for everything needed should be cultivated. It is not restful to hunt madly for gloves or overshoes; to make hay in a drawer in desperate search for a missing article; to turn a household upside down with frantic cries, "Mother, where is my hat?" "Who's taken my mileage book? I know I'll miss the train."

The girl who works must be neat and in order. Mere surface cleanliness will not do. If there is lack of system there are sure to be painful mistakes and sharp reprimands. For her own sake a girl should be orderly; the time taken hunting one's belongings is that much time lost. Work in arrears is bad business.

The easiest way to be orderly is to learn that it is as easy to put an article in one place as another. It is not difficult to acquire places for everything and keep those things placed. The easy-going girl does not realize until she has a reputation for being sloven how far from nice she is.

Another cure for disorder is elimination. Cut down your belongings. If you live in cramped quarters make the elimination drastic. It is surprising how much we can get along without. To own no more things at one time than one needs means a more placid life.

If naturally careless and without early training in neatness, a woman should take herself severely in hand. She should determine to be neat at any cost. This means living more slowly. Half the secret of misplaced belongings is planning more for our day than there are hours for accomplishment. The woman who rushes from one engagement to another leaves a trail of scattered belongings and upset rooms.

## Meringue Cereal Cream.

Use any cooked cereal. Boil that it is steamed until it is very soft and creamy. Then remove from the fire and to each cupful stir in one tablespoonful of whipped cream and the same amount of stiffly whipped egg white. Serve this immediately heaped on saucers, dusted with powdered sugar and pour over each portion half a small cupful of thick cream. This recipe may also be varied by stirring in a tablespoonful of chopped nut meats, seeded raisins, dates or figs, and forms one of the most delicious preparations.

## Cream Cake.

Two cups powdered sugar, two-thirds cup butter, four eggs, one-half cup milk, finally the frothed whites, alternately with the flour; bake in jelly tins; when cold, spread the following mixture between them: One cup milk, two small teaspoons cornstarch, one egg, one teaspoon vanilla, one-half cup sugar; scald the milk, add the cornstarch, wet with a little cold milk, pour upon the beaten eggs and sugar, return to the fire and stir until quite thick, flavor when cold.

## Grape Juice Punch.

Cook together one pound sugar and half pint water until it spins a thread. Take from the fire and turn over a cup of strong tea. Add the juice of six lemons and the same amount of oranges with a quart of grape juice and stand aside over night. When ready to serve add sliced fruits and the water, plain or mineral, with ice in the punchbowl. If desired, cut one-half pound marshmallows into quarters and allow three to each glass.

## Egg Salad.

Make a cup from the crisp leaves of lettuce. Remove the shells from hard-boiled eggs, slice them across with a sharp knife and arrange the slices in the cup without breaking them. Break hickory nut meats in medium sized pieces and sprinkle generously over the top of the eggs. Garnish with a rich mayonnaise dressing and top with a brilliant green mint cherry. Chill well before serving.

## Orangeade.

Squeeze out the juice of an orange, pour boiling water on a little of the peel and cover it close; boil sugar and water to a thin sirup and skim it; when all are cold mix the juice, the infusion and the sirup with as much water as will make a rich drink; strain through a jelly bag.

## Potato Puffs.

Boil six potatoes and put through rice. Beat one egg; mix with it one-fourth cup milk; add the potatoes, piece of butter and salt. Form potatoes into fancy shape, brush with egg and bake in hot oven.

## Chili Sauce.

Eighteen large tomatoes, two onions, three green peppers, one cup white sugar, 2½ cups vinegar, two teaspoons each salt, cinnamon, cloves and allspice. Cook half an hour and bottle.

## One of the Number of Metcalfe's Exclusives

This is a cut of Metcalfe's new Prosperity Shaper, which is going such a long way in decreasing the irritation of men folks' necks and temples, by letting all fold collars be so ironed that tie slides well in collar, and collars are given nice, smooth, oval edge. It is utterly impossible for a collar to crack or break in our laundering process. Our shirt department is one which we feel proud of; not only is work done right, but the shirts are put in Sanitary Covers. Our Dry Cleaning department is in the hands of skilled workmen.

We have flowers for all occasions. Remember that if you buy or contract for \$10 worth of coupon books, and take one during August and another when the Avalon is finished, the profits from the business, and take, go into the Avalon, a place of pleasure for Hopkinsville and surrounding country people.

## POULTRY

### KEEP POULTRY HOUSE CLEAN

Given Plenty of Good Food and Well-Kept House Hen Will Solve the Winter Egg Problem.

Experience has led me to conclude that cleanliness is a profitable virtue in poultry raising. Give the fowls plenty of good food and clean quarters and she will give no occasion to worry over the winter egg problem. We who have followed the chicken business either for pleasure or profit, for pin money or income, have heard this time-old advice repeated with religious regularity every new moon, writes Dennis H. Stovall of Oregon in the Northwest Farmstead. When we give it heed, we win; when we let it pass, we lose.  
Cleanliness in the henhouse and the poultry yard is a very simple thing, for the reason that it depends upon simple things. A few years ago I experimented with fancy roosts, patent drop boards, intricate nest shelves, and various other contrivances calculated to make the hen lay, and to make chicken raising easy. These have all been discarded. They entailed too much care, and involved far more labor than the simple, common sense methods. I have found nothing better for roosts than those of the saw-horse pattern. This gives a roost

about three feet high, and each one long enough to accommodate at least a dozen fowls without crowding. Placed side by side, rather than one above the other, they assure perfect cleanliness. They can be easily removed from the house for cleaning and treatment with lime, emulsion or lye. With a smooth board floor this allows a chance for cleaning the henhouse perfectly; and I have found it a good plan to give the house such a cleaning twice a week.  
The next boxes are also removable, so as to allow a thorough cleaning and change of straw, the old being burned.

### CURE FOR DROOPY POULTRY

Dip Made of Strong Bacon Grease and Warm Water Will Cause Feathers to Drop Easily.

Save all the strong bacon grease, especially the grease from fried bacon. When your fowls sit around pecking themselves and looking droopy and shabby, get a large deep can or bucket; from its shape a large candy bucket is best; fill it nearly full of warm water; on this pour melted grease until it forms a thick scum over the water; catch your fowls, take them one by one, by their wings, and with the head held straight up, dip them down, pretty hard, two or three times into the water; let the head go completely under once; do this quickly to avoid strangling the fowl; then turn it loose.  
After waiting a few hours for the water to drip from the feathers, drive them into the shade, so the sun will not blister them. For a short time they will be a sorry looking lot of fowls.

This treatment causes the feathers to fall apart, so the body of the fowl is cool, the water softens the skin; the grease-laden feathers fall out easily, and the new ones push their way through the skin and grow in masses instead of one or two in a place; the time of moulting is shortened; the fatty grease kills all vermin on the fowl, while the grease-saturated feathers are death traps to any vermin that may get on them.

Keep the bucket filled with water and pour more grease on the water from time to time.

The fowls should be dipped early in the morning and made to roost under shelter for several nights.

By dipping fowls in the early fall they become healthy and free from pests, hence stand the winter better, and in the spring have little or no vermin to annoy them and get on and kill their little ones.

#### Killed by Kindness.

More brooder chicks are killed by kindness than die of any other complaint. A chick that is a little hungry will take exercise sufficient to keep in good health. Make your ration for chicks about one-third cracked cane seed, and you will not have much bowel trouble, and sprinkle the floor of the brooder with good clean sand every day or two.

#### Vermin in Hot Weather.

Vermin breeds much faster in warm weather than in cool weather. Often give the henhouses, brooders and brood coops a thorough disinfecting with some good liquid disinfectant and dust the fowls and chicks well with lice powder.

### GOOD SUPPORTER FOR PLANTS

Florida Man Contrives Standard With Wire Arms That Guides Growth of Young Trees.

For the support of plants and young trees during the period when they are getting a start in life a Florida man has designed the contrivance repro-

duced here. A standard with longitudinal grooves on the opposite faces of its two sections is thrust into the ground near the tree. A length of wire, bent into a coil at the center and forming two arms, is attached to the standard by rolled ends that engage the grooves. These arms can be slid up or down the standard to accommodate the height of the plant. The latter is embraced by these two arms and not only is forced to grow straight, but is given much-needed support during the heavy rains and wind storms that beat so many unsupported plants and young vegetation of all kinds to the earth.

### SOME LITTLE FLOWER HINTS

Care Should Be Used in Taking Up Plants to Place in Window—Get Cuttings of Favorites.

In taking up plants to put in the window, be careful about the roots. If they are maltreated in any way, be sure to cut off all the bruised parts and shorten in a corresponding way the top branches of the plant.

Newly potted plants sometimes do not do well at first. Don't expect too much of your plants until they are well established. As soon as new feeding roots are formed the plant will pick up. Maybe you have given too much water which has soured the soil. Water only when the surface of the soil feels dry to the touch.

If you have a large east window turn it into a bower of beauty. Fasten a strong shelf below the sill and nail a wire arch or grill across the top of the window. When you dig your Madera vine select several large, healthy roots and put two or three in a six-inch pot. Place a pot at each end of the shelf. As the vines grow furnish them with string or narrow wire netting to grow on. They will soon reach the top of the window and cover the arch.

Go into the garden before Jack Frost appears and take cuttings of all your favorites. Slip a nasturtium for winter blooming. The double nasturtium roots easily and is a desirable pot plant.

### PLANT IN CEMENT SIDEWALK

Good, Cleanly Way of Arranging Pot or Keg Out of Sight Is Shown in the Illustration.

The pot holding a plant or vine at the entrance of a residence in a crowded city is usually in the way, and when the plant is watered the walks become wet, says the Popular Mechanics. The illustration shows a good,

cleanly way of arranging a pot or keg in the walk, so that it is out of sight, and the seeping water will be taken up by the earth. A cover may be made for the pot as shown.

#### Stable Manure in Orchard.

The value of stable manure or other fertilizer in the orchard depends almost entirely upon the conditions of the soil and climate. Some soils grow excellent fruit without any fertilizer, while others must be fed. Simply a case of science and good judgment.

#### Fruit Varieties.

The farmer who raises fruit for his own family should have a much larger variety than the commercial orchardist, because the latter must produce enough of each kind to ship to advan-

**Buildings Removed.**

The last building in Virginia Park was gotten into the street Thursday and is on its way to a vacant lot on East First street, near the home of E. W. Glass. A great quantity of debris and material thrown aside when the buildings were torn down still remain, which gives the park a very uncanny appearance. All this will be removed in a few days and in a short time the work of beautifying the grounds will be begun. In order to restore the grounds to their former beauty, quite a lot of preliminary work will have to be done this fall.
